

Data Licensing Form

Date:

Data provider name and title:

Dataset name and description:

The Office of Coast Survey greatly appreciates your voluntary contribution of data. A license assignment onto the data is required for submission. The license standardizes our handling of the data into the National Bathymetric Source (NBS) and improves communication to end-users. The collection of Externally Sourced Bathymetry Data is authorized under the OMB Control Number included in the [Citizen Science & Crowdsourcing Information Collection page](#). Click any of the below links for more information on data licensing and the various options. Please select below:

I authorize that the data enter the public domain. I waive copyright, and the data may be used by anyone, for any purpose. NOAA will use the data for charting and other products and will make the data publicly available. [CC0-1.0 equivalency](#)

I authorize that the data enter the public domain, with our copyright and attribution maintained onto the data in its original form. The data may be used by anyone, for any purpose. NOAA will use the data for charting and other products and will make the data publicly available. [CC-BY-4.0 equivalency](#)

I submit the data for NOAA's internal use only. The data will not be publicly released and will only be used for internal modeling and planning purposes. NOAA will not use the data for charting or any external-facing products. [Internal Use Only equivalency](#)
